IJA Second Level Dressage Test 3
WESTERN**

The purpose of Second Level Tests is to confirm that the horse, having achieved the impulsion required in First Level exhibits a more weight bearing posture into the hindquarters in all gaits. Increased suppleness and mobility of joints result in a greater degree of straightness, bend, throughness, balance and self-carriage.

Marks for quality of gait include the walk and the lope, which are common to all horses and therefore quantifiable. The collective marks will address the quality or correctness of the intermediate gait, which is executed differently from horse to horse. The quality of the intermediate gait is based on self-carriage, balance, regularity, rhythm, freedom, straightness and suppleness.

Note: the letter G, I, X, L and D are not marked in the actual arena, but are shown here to provide a visual reminder of their placement.
